EDUCATION

Scheduled to be finished on 2024
Bachelor of Science (hons) in Computing
University Of Bolton - UK (pending)

2021 Jan - Present
Graduate Diploma in Software Engineering (GDSE)
Institute of Software Engineering (IJSE)

2019 (Commerce Stream)
G.C.E Advanced Level Examination
Anula Devi Girls' College

2016 (English Medium)
G.C.E Ordinary Level Examination
Anula Devi Girls' College

PROFILE

I am still a software engineering student in IJSE (Institute of Java Software Engineering) and currently completing the third semester, now I am looking for an Internship.
I was passionate about Designing and like to make interfaces simple and aesthetically for users.
I am not afraid of challenges and look forward to learning more about the complete process of creating meaningful experiences for Users.
I am open to listening, learning, and collaborating, and I easy going person with a positive attitude and good team working ability. I think everything is possible.

PROJECTS

LIVE CHAT APPLICATION

2022 August 04 - 2022 August 16

In this application Users can log into the chat room using his/her name and they can send a message from the interface that he/she has. Messages can contain text, Unicode characters, emojis, and images.
Other users can simultaneously receive that message and see it in their interface.
Users see the sender of the message and can respond to the messages accordingly.
chat should update with every message sent simultaneously to all the users.

Technology Stack: Client-Server architecture, sockets, Java, JavaFX, and Github

My Role: Total Contribution

Duration: 12 Days

GitHub Link: https://github.com/NirashaMadubhashini/Client_Chat_Application.git

EASY CAR RENTAL SYSTEM

2022 June 30 - 2022 August 04

This is a Car renting System that eligible customers can view cars and place orders from their desire, admin and driver also have their own dashboards to handle their tasks smoothly

Technology Stack:
GitHub
Front End: React,JavaScript,Jason
Back End: Spring MVC, Spring Data JPA, MySQL, Lombok, ModelMapper
, Jackson,layered-architecture

My Role: Total Contribution

Duration: 35 Days

GitHub link:https://github.com/NirashaMadubhashini/Car-Rental-System-FrontEnd.git

TECHNICAL SKILLS

- Java/JavaFx
- Spring
- JPA/Hibernate
- ReactJS
- React Native
- MySql
- Html
- CSS
- Boostrap
- JavaScript
- JQuery

SOFTWARE TOOLS

- IntelliJ IDEA
- Visual code
- Netbeans

SOFTSKILLS

- Creativity
- Team Work
- Leadership
- Strong Communication
- Problem Solving
- Time Management

SIPSEWANA INSTITUTE

2021 December 15 - 2022 January 03

This is a Sipsewana institute(Education Institute)students can register for training programs.
admin can add new training programs and can view the details of the students who register for the training programs at the Sipsewana Institute

Technology Stack: Layered Architecture,Hibernate Framework(ORM Tool),Java,JavaFX and MySQL

My Role: Total Contribution

Duration: 19 Days

GitHub Link: https://github.com/NirashaMadubhashini/Hibernate-Final.git

LAYERED MARKETING

2021 October 18 - 2022 October 30

Customer can place their orders to the cashier (list of items).
The cashier send the orders to the stores and store will prepare a list of goods and send them back to the cashier and he creates the final bill of the order according to the items received from the stores.
Customer pays the amount in full and One customer can place at least one or many orders.
The administrator of the system has rights to add, delete and modify items and, able to manage system
reports.

Technology Stack: Layered Architecture,Java,JavaFX,MySQL

My Role: Total Contribution

Duration: 12 Days

GitHub Link: https://github.com/NirashaMadubhashini/Layered-Marketing.git

INVENTORY MANAGEMENT SYSTEM

2021 August 26 - 2022 September 30

In this application, there is Customer and Admin.
Customers can place orders for their requirements.
Admin can view all the customers and their order details. He can manage the stores of the shop.
add, delete and update the Products in the stores

Technology Stack: MVC Architecture,Java,JavaFX,MySQL

My Role: Total Contribution

Duration: 36 Days

GitHubLink:https://github.com/NirashaMadubhashini/Inventory-Management-System.git

Diagram and Wireframe Tools

- Figma
- Adobe XD
- Gloomaps

INTERESTS

- Singing
- Travelling
- Movies
- Listening to Music
- Programing
- Dancing

ACHIEVMENTS

- Participated in Hackathon 2022 - IJSE
- President of the commerce Society in Anula Devi Girls' College- 2019

LANGUAGES

- Sinhala (Native)
- English
